

# 'STILL A NATION UNDER GOD': EISENHOWER

## Accidents Killed 92,000 Persons in U.S. in 1955

### About Town And Country By TIMOTHEUS T.

I DON'T KNOW HOW the weather is today, but if today is like yesterday afternoon, when this effort was being written, the groundhog won't be afraid of his shadow if he comes out today, he'll be afraid of drowning, of slipping in the mud and breaking a leg, or getting stuck up in a mudhole.

Today, which is Feb. 2, is Groundhog Day, and it is the day the groundhog is supposed to cease hibernating and venture from his hole.

Tradition, or superstition, has it that if the ground hog sees his shadow at noon on that day he becomes frightened and returns to his burrow and six more weeks of winter ensue.

If the day is cloudy at noon and he does not see his shadow, he remains outside and an early spring follows.

Now you folk who are reading this dissertation really know more about the weather condition at noon than I did yesterday when this piece was being composed; thus you've a better idea right now than I had yesterday afternoon as to whether or not Mr. Groundhog saw his shadow.

EDUCATION DEPT.: Or, it might be titled, "Drama in the Dressing Room."

At the Saline county tourney the other night, before the games got under way, the discussion was about basketball, of course.

And before all of the talk was over HTHS Principal Eltis F. Henson, an affable fellow if there ever was one, got in a few remarks.

His two stories dealt with when he was a basketball coach in Kentucky.

Mr. Henson told of the time his high school team made Ripley's "Believe It or Not."

Believe it or not, one of Mr. Henson's players was high scorer for his own team and high scorer for the opposition.

Yep, that's right.

This fellow had a lot of points for his own school, but during this particular tilt he was credited with knocking in two baskets for the opposition. That gave him four points for the foe and the next highest number of points for that school happened to be four.

He also told of his player who always did just what he told him to do.

In one game an opposing player dribbled into the wrong basket and jumped high for what appeared to be a layup.

He would be an easy basket for Henson's team. (I don't know why there's so much shooting at the opposite basket in Kentucky; I forgot to ask.)

But did the player make the shot?

No, because Coach Henson's boy jumped high with him and knocked the ball away cleanly, without fouling, just as it left the shooter's hand.

Later Mr. Henson asked the player why he didn't let the player make the basket for them, and got the reply:

"Before the game you told me to guard him close, and that's just what I was doing."

Cummins Ailment Still Undetermined

Relatives here have been informed that doctors have not yet determined the ailment that has hospitalized Jim Cummins, HTHS junior who is a football letterman and who has been a varsity basketball squad member.

Young Cummins was taken to Barnes hospital in St. Louis for examination to determine the cause of his trouble. He had complained of a sore hip and was running a fever.

A traction has been placed on his leg at the St. Louis hospital.

His parents, Mr. and Mrs. Walter Cummins, are with him in St. Louis.

The Weather

ILLINOIS: Partly cloudy and much colder tonight with cold wave over much of northwest and extreme north; mostly cloudy with occasional snow and somewhat colder south. Friday partly cloudy and cold north; mostly cloudy south with snow likely extreme south-east. Low tonight near zero extreme northwest, around 20 extreme southeast. High Friday in the 20s.

### Auto No. One Killer, Safety Council Reports

9,200,000 Hurt;  
Estimate Economic  
Loss at \$10.3 Million

CHICAGO (UP)—Accidents killed 92,000 Americans in 1955, and the auto was the No. 1 killer, the National Safety Council said today.

Mishaps injured 9,200,000 others, the council said, and exacted an economic loss estimated at a whopping \$10,300,000.

Motor vehicles claimed 38,300 lives in 1955 accidents, an 8 per cent increase over the 1954 count. The number rose each month from March on, to a 14-year high for the last month of the year.

The all-accident toll of 92,000 compared with a total of 89,432 in 1954, an increase of 3 per cent. Despite the increase, the per capita accident death rate was the second lowest in the history of accident records.

The 1955 rate of 56 per 100,000 population was bettered only in 1954, when accidents killed 55.5 out of each 100,000 population.

Traffic Deaths Major Factor

The Safety Council said the 8 per cent increase in highway deaths was the major factor in the higher all-accident death toll.

The 1955 traffic toll was 2,714 above the 1954 count of 35,586 and about 1,670 below the all-time high of 39,969 established in 1941.

The December toll climbing a 10-month rise was 3,960, up 12 per cent over December, 1954, and the largest monthly toll since December, 1941.

The Safety Council in its annual year-end survey, showed these figures on accident deaths:

	1955	1954
All accidents	92,000	89,432
Motor vehicle	38,300	35,586
Home	27,300	27,500
Work	14,200	14,000
Public	16,000	15,500

Public deaths listed did not include motor vehicle deaths.

The Safety Council said one out of every 18 persons in the United States suffered a disabling injury last year.

19,800 Die in Falls

Falls, always a heavy killer, brought death to 19,800 persons, 1 per cent more than in 1954.

Drownings accounted for 6,400 deaths, 1 per cent more than in 1954, and firearms deaths totaled 2,300, about the same as in the previous year.

The National Safety Council said all age groups except children under 5 years old shared the all-accident death rate increase. Tots showed a 1 per cent reduction.

The bulk of the accident toll was made up of one or two deaths accidents, the council said. It recorded only four 1955 catastrophes that caused more than 50 deaths each.

The May tornadoes in Kansas and adjacent states, the August hurricanes and floods in the Northeast, the crash of a United Air Lines plane in Wyoming in October, and the December floods in California and Oregon.

Drilling Permits Include One Near Harrisburg

Permits to drill one oil test in Harrisburg township, three in Raleigh, one in Galatia and one in Brushy were issued at Springfield between Jan. 25-27, it was disclosed today.

The Harrisburg township permit was to George C. Engle, Evansville, Ind., for the Charles E. Seton Sr. No. 1, SEC SW SE, 2-8-6e, which is east of Route 45 near Muddy.

The other permits:

To E. F. Moran, Inc., Evansville, for the Robert C. Tuttle No. 1, NWE SW NW, 13-8-5e (Galatia); To the Sun Oil Co., Evansville, for the Small Unit No. 1, SEC NE NE, 26-8-5e (Brushy); To C. E. O'Neal and Co., Evansville, for the P. L. Wetlaw No. 5, SEC SW NE, 20-8-6e (Raleigh); To Superior Oil Co., Crossville, Ill., for the E. W. Read No. 1, NEE SW, 25-8-6e (Raleigh); To Superior Oil Co. for the Joseph Bertino No. 2, SEC NW, 25-8-6e (Raleigh).

Placed on Probation After Plea of Guilty

Norman Jones of Galatia pleaded guilty to a charge of burglary and larceny when arraigned this morning before Judge C. Ross Reynolds in circuit court and was placed on probation.

Jones was charged with taking part in the theft of items from the Raymond Davis home near Galatia more than a year ago. He was represented by Atty. Scerial Thompson.

### Ozark Comedian Bob Burns Dies of Cancer at Age 64

HOLLYWOOD (UP)—Bob (Bazooka) Burns, Ozark comedian who made a fortune spinning tall tales about his relatives in Van Buren, Ark., died of cancer today. He was 64.

Burns was in a coma since Saturday at West Valley Community hospital where he was being treated for cancer of the kidney. His physician, Dr. David Hertz, said the comedian underwent surgery three years ago and had been in declining health ever since.

Burns' wife Harriet, once his secretary, was at his bedside when he died. They eloped to Las Vegas, Nev., in 1937.

The comedian also is survived by their three children, Barbara, 17, Robbin, 16, and Stephen, 15. Burns also had a son, Robert, 35, by his first wife, who died in 1936.

Inactive in show business for the last 10 years, Burns was bedridden for most of the last five years.

His sly hillbilly humor and bazooka were a national laugh remedy during the depression years of the 1930s.

### To Speed Missile Program; Bolster Reserve Training

WASHINGTON (UP)—Defense leaders are preparing drastic actions to speed ballistic missile development and pump more life into the military reserve program.

About 100,000 draftees may be released from the Army six months before ending their two-year stints so they can join reserve units and use their experience to step up training. If the plan now being studied is adopted, present draft calls of 6,000 a month for the regular Army may be doubled.

In the guided missiles field, where the Russian challenge admittedly is grave, a "czar" soon will be named by Defense Secretary Charles E. Wilson with unprecedented power to push robot weapons development and production.

Wilson unfolded the twin defense moves at a news conference late Wednesday in the wake of congressional criticism of both the missile and reserve manpower programs.

Sen. Henry M. Jackson (D-Wash.), a constant critic of missile progress, today applauded the decision to appoint a "czar" but contested a Wilson claim that all possible is being done to develop continental and 1,500-mile range automatic weapons. He called for an "all-out, wartime" effort.

The tentative plan to bolster the reserves with men released from active duty after 18 months service represents a shift in Pentagon thinking. Up to now Wilson has refrained from using the authority Congress gave him in the reserve act last year to let draftees out early if they volunteer to participate actively in reserve units.

Train Dispatchers Win Pay Boost

CHICAGO (UP)—The American Train Dispatchers Assn. has won a 7 per cent wage boost for its 4,000 men.

The new contract, retroactive to Oct. 1, will mean a monthly increase of \$34 for train dispatchers of all major U. S. railroads.

Contest Ballot Cast By Candidate's Son, 5

CALHOUN, Ga. (UP)—Election officials threw out one vote cast for newly re-elected county commissioner John Slagle.

The contested ballot was cast by Slagle's son, Mike, who is five years old.

### Groundhog Sees Shadow in Punxsutawney, But Love Calls Off Wisconsin Forecast

PUNXSUTAWNEY, Pa. (UP)—The Punxsutawney groundhog crawled from his burrow atop Gobbler's Knob today, spotted his reflection on the snow covered landscape and promptly popped back into his hole to sleep out another six weeks of wintry weather.

Members of the Punxsutawney Groundhog Club, who kept a night-long vigil at the Gobbler's Knob weather station, said the sun peeped through an overcast sky at exactly 7:33 a. m. CST, permitting their famed weather prophet to see his shadow. The club members pulled their wintry duds around them tighter as the groundhog took one look at his shadow and disappeared.

If there had been no shadow, the club members would have hailed out their spring duds.

SUN PRAIRIE, Wis. (UP)—The groundhog came a cropper in Sun Prairie today, but it was obvious anyway that spring wasn't "just around the corner."

The Wisconsin groundhog, who was supposed to uphold Sun Prairie's claim to be "the groundhog capital of the world," was not available for forecasting because he was in love.

However, he wouldn't have seen his shadow even if he had appeared. The sky was hazy, although the sun barely peaked through now and then. It had been snowing lightly for more than 19 hours by the time the groundhog was supposed to appear for his look at the world.

Wally Woodehuck Braatz, a veteran Sun Prairie groundhogger, sadly announced there would be no official prediction for 1956.

"It has been called off on account of love," Braatz said. He explained that Prince Dauphin, an albino groundhog slated to do the looking this year, had fallen ears over forepaws in love with a lady of the same species and wasn't having anything to do with anyone except his mate.

### Asks Congress To Lower Benefit Age for Women

Sen. Neuberger  
Declares House Bill  
A Halfway Measure

WASHINGTON (UP)—Sen. Richard L. Neuberger (D-Or.) urged today that Congress lower the social security benefit age for women from 65 to 60 years.

He said a House-passed bill reducing women's benefit age to 62 is only a "halfway measure."

Neuberger testified at a Senate Finance committee hearing on the bill approved by the House last year. The measure also would allow disabled workers to start collecting social security benefits at 50 years instead of 65.

He said about one-fourth of the married men over 65 have wives between 60 and 65. In many cases, he said, the husband now has to keep working until his wife reaches her 65th birthday and can collect her benefits.

He said unmarried women and widows who face "the hard task of finding work to keep alive" until they can qualify for social security benefits also "deserve the opportunity" to retire at 60.

E. Russell Bartley of the Illinois Manufacturers Assn. said the social security system already is "unsound," and the House bill would make it more so.

"No one pays enough into the social security bill to provide the benefits he is promised by law," he said.

Bartley said the House bills proposed increase of 1-2 per cent each on social security taxes paid by employees and employers would fall hardest on the lower-income groups. He said social security taxes for many are already higher than their income taxes.

Bartley said lowering the benefit age for the disabled would be "a big step towards socialized medicine." It would "inevitably" be followed by a demand for federal medical care, he said.

### Explosives Plant To Open in Ordill Industrial Area

EAST ALTON, Ill. (UP)—Olin Mathieson Chemical Corp. has leased manufacturing facilities at the Ordill industrial area near Carterville for the production of related explosive products.

The facilities are located at the Illinois Ordnance plant at Carterville, which now are administered by the Fish and Wildlife Service of the U. S. Department of the Interior as part of the Crab Orchard National Wildlife Refuge.

Vice President Norl Hamilton, who also heads the explosives division of Olin Mathieson, said the company will build other plants at Carterville to house operations which cannot be adapted to existing structures.

Hamilton said the new units will be in production by the end of this year and will employ about 150 people.

Daughter Held For Shooting Mother in Back

SCRANTON, Pa. (UP)—A mother, shot in the back by her teen-age daughter, was in a critical condition today as the district attorney's office revealed more details of an alleged patricide for profit plot.

including the fact that the girl tried on three other occasions to shoot her parent but "froze" with the weapon in her hand.

Mrs. Margaret Chomko, 38, of nearby Taylor, was in Taylor hospital unable to talk to police about the 38 caliber wound in her back. Physicians feared an operation to remove the bullet because of her condition.

Asst. Dist. Atty. Ralph P. Needle charged that the woman was shot by her 16-year-old daughter on Monday as part of a conspiracy with her boy friend and another man.

Needle claimed the plot also called for death to Mrs. Chomko's husband, Joseph, so the three could share the wealth from his trucking business.

The attorney said the daughter, Marlene, her boy friend, Samuel, 22, and John Pitta, 34, the father of three children, would be charged with murder if Mrs. Chomko died.

Marlene, a tall slender girl with light hair, was held in the Lackawanna County detention home on a felonious assault charge while the men, both of Scranton, were held on open charges.

Denies Motion For New Trial

Circuit Judge C. Ross Reynolds this morning denied motions for a judgment notwithstanding the verdict and for a new trial in the twice-tried damage suit, C. C. Fenwick vs. Blue Bird Coal Co.

First time the case was tried a circuit court jury awarded the Fenwick a \$9,000 judgment for timber damage the complaint charged was caused by impure water running over the land from a refuse pile at the Blue Bird mine.

A new trial was sought and awarded. At the conclusion of this trial another jury also awarded the plaintiffs a judgment of \$9,000.

This morning the new motions were argued, Atty. Arlie O. Boswell representing the Fenwick and the law firm, Rumsey and Dennis, representing the coal company.

OPEN HEART DRIVE—Mrs. Dwight D. Eisenhower chats with 4-year-old Debbie Lynn Day, of Greenbelt, Md., after ceremonies at which the First Lady pressed a button lighting up the symbolic heart torch in connection with the national torch-lighting campaign of the American Heart Association. At right is Gen. Mark Clark, National Chairman of the 1956 Heart Fund. (NEA Telephoto)

### Gary Robert Clarida, 20-Months-Old, Dies

Gary Robert Clarida, 20 months-old son of Mr. and Mrs. Leeman Clarida of Galatia RFD 2, died last night at six o'clock in the Lightner hospital.

Besides his parents he leaves the following brothers and sisters: Leeman Roy Clarida of West Frankfort, Linda Lou, Lawrence James, David Lee and Larry, all at home.

The body was taken from the Courtney funeral home in Galatia to the home of an uncle, Rev. Jesse Clarida, west of Harrisburg, to lie in state.

The funeral will be Friday at 2 p. m. at Smart Chapel southwest of Harco, Rev. Vernon Buchanan, assisted by Rev. Jesse Clarida, will officiate and burial will be in Brushy cemetery.

### Postal Request Heads for Dead-Letter Office

WASHINGTON (UP)—President Eisenhower's request for a one-cent increase in postage on first class mail appeared headed today for Congress' dead-letter office.

"I don't think there's a chance of passing any such bill," Democratic House Whip Carl Albert (Okla.) told the United Press.

But members did not rule out the possibility that Congress might seriously consider Mr. Eisenhower's requests for increase in postage rates on newspapers, magazines, and third class mail.

Mr. Eisenhower in letters to congressional leaders Wednesday asked that postage be raised from three to four cents an ounce on first class letters and from six to seven cents an ounce for airmail.

The increases—rejected by Congress in 1953, 1954 and 1955—would raise \$311 million of the \$405 million in rate boosts proposed by Mr. Eisenhower.

Mr. Eisenhower also proposed rate increases of \$77 million a year in third-class mail and two successive annual increases of about 5 per cent each in postage rates on newspapers and magazines. The latter would yield \$17 million the first year.

He assumed in forecasting a budget surplus of \$400 million for the next fiscal year that Congress this year would raise postage rates at least \$350 million.

Sen. A. S. (Mike) Monroney (D-Okla.) a member of the Senate Post Office Committee, commented that "a readjustment in third-class 'junk' mail might be helpful and we should take a look at second class to see if it can stand an increase."

### Eisenhower-Eden Declaration Warns Free Nations Wooded by Reds

WASHINGTON (UP)—The United States and Britain have warned the world that Russia has gobbled up 10 European nations and 100 million people in the last decade.

President Eisenhower and British Prime Minister Anthony Eden issued the warning in a "Declaration of Washington" aimed at undeveloped nations being wooed with Soviet offers of aid.

"Millions of people... have been forcibly incorporated within the Soviet Union and many millions more have... been absorbed into the Soviet Communist bloc," the declaration warned.

"Any free nation that may be persuaded by whatever threat, promise or enticement to embrace Communism will lose its independence and its people will forfeit their rights and liberties."

The joint declaration said:

1. "The state should exist for the individual and not the individual for the benefit of the state." Therefore, peoples have the basic right to "governments of their own choice."

2. These beliefs have been translated into actual conduct of U. S. and British policy. During the past 10 years 600 million people have attained nationhood with U. S. and British aid and "many millions more" are being helped to self-government.

3. The United States and Britain also have helped provide "economic sustenance and growth" to many nations. The Anglo-American aid programs are designed to "enrich and secure" freedom for other nations—not to extend the power of United States or Britain.

4. But during this same 10-year period millions of people have been "forcibly incorporated within the Soviet Union" and millions are absorbed into the Communist bloc. Communist rulers have said repeatedly their goal is to extend Communism "until it encompasses the world."

Precipitation for Week 2.85 Inches; Aids Water Supply

A total of 2.85 inches of precipitation the past week which was capped by a 1.85-inch rainfall yesterday and last night brought the winter drought and was running millions of gallons of water into the Harrisburg water supply.

Last Friday 17 inch of precipitation was recorded. On Saturday the figure was 27 and Sunday .54. Then rains yesterday and last night brought the figure to nearly three inches in a week.

Water was pouring down Middle Fork creek and at 10:30 a. m. the water was still rising. At 3:20 a. m. the water department started the 3,000 and the 750 gallons per minute pump at 6:40 a. m. The big 14,500 gallons per minute pump was put into operations. These pumps send water from the creek into the standby reservoirs north of the city.

Employees were hopeful that the pumping can continue through the night and tomorrow.

A rise of several inches was reported at Lake Harrisburg, about 10 miles north of Harrisburg in Raleigh township. Galatia had 1.72 inches of rain between 7 a. m. yesterday and 7 a. m. today.

L. B. Kimmel, Saline county farm adviser, said that the winter drought was apparently over, that the rains should be fine for grasses and spring seedlings. The early winter drought, however, probably will have had some effect on the wheat, with a smaller yield possible, he stated.

### President is Given Plaque At Breakfast

Says Religion in  
U. S. Dispel Wrong  
Impression to World

By MERRIMAN SMITH  
United Press White House Writer  
WASHINGTON (UP)—President Eisenhower said today the revival of religion in America has demonstrated to the world that "this nation still is a nation under God."

The President spoke briefly to a group of about 500 prominent Washington figures, including members of the Cabinet and Congress, who met at breakfast in a local hotel to pray and discuss methods of bringing religious influence to bear on the conduct of business and government affairs.

Hotel owner Conrad N. Hilton was the host at the breakfast which marked the start of a three day conference of the International Council for Christian Leadership.

Hilton presented to Mr. Eisenhower a silver plaque on which was engraved the prayer Mr. Eisenhower offered at the start of his inaugural address in January, 1953.

Accepting the plaque, Mr. Eisenhower said that public reaction to his prayer taught him a great lesson.

"It seemed to me a perfectly natural thing to do," the President said.

He said he was therefore surprised when thousands of letters poured into the White House, some from his political opponents, praising the prayerful manner in which he approached his high office. He said these letters underlined in his mind the deep religious faith which motivates most Americans.

"I know very few people who have ever told me that they are atheists or agnostics," the President said.

He said regretfully that there was a recent time when much of the world believed that the United States was materialistic, arrogant, boastful and proud. But he said he was grateful that a since display of religious belief in this country exemplified by today's prayer meeting—had served somewhat to dispel this impression and to show the world that "this nation still is a nation under God."

Follow Prince of Peace

He said the Geneva Big Four summit meeting last July also had at least one valuable accomplishment. This accomplishment, the President said, was that people across the world learned that "the United States was trying to follow in the footsteps of the Prince of Peace and establish peace with justice throughout the world."

He said naturally the United States must continue to remain strong, but that any other nation which approaches this country with integrity and moral faith "can be assured of a friendly reception."

Before Mr. Eisenhower spoke, Sherman Adams, the assistant to the President, read from the Old Testament and Sen. Price Daniel (D-Tex) read from the New Testament.

This afternoon the President and Mrs. Eisenhower leave for a "quiet weekend" at their Gettysburg, Pa., farm. They will register to vote in Pennsylvania at the Adams County courthouse Friday.

Europe Hit By Bitter Cold

LONDON (UP)—Bitter Arctic winds brought Europe one of its worst cold waves of the century today.

Snow fell on Rome for the first time in nine years, and Germany and France opened emergency warming rooms for freezing citizens.

A sharp earthquake was felt in Messina, Sicily, and in cities on the southern tip of Italy. The quake was believed centered in the Aeolian Islands. No damage was reported.

Entered as second class matter at the post office at Harrisburg, Illinois, under act of March 3, 1879. Subscription Rates: By Carrier 25 cents per week. By mail in Saline and adjoining counties, \$6.00 per year in advance; \$1.75 for three months. Outside Saline and adjoining counties, \$8.00 per year; \$2.50 for three months; \$1.00 per month. Single copies, 5c. The Daily Register is a private business institution. ### Timely Visit

**Editorial — BY BRUCE BLOSSAT**  
Prime Minister Sir Anthony Eden's visit to the United States will not eliminate policy differences between Britain and this country on the major issues of the Cold War. But if it narrows them in any material way, it will prove worth while.

The existence of differences is natural and should never be cause for alarm. No two peoples ever see world problems in exactly the same light. But it is important to keep differences between allies to a reasonable minimum.

Leaders of both Britain and the United States have always understood this. This is attested by the fact that Eden's current visit is the seventh Anglo-American meeting of government heads since World War II ended.

The moment for another could hardly be more fitting. Communism's political and economic offensive, thwarted in Western Europe, has shifted to the Middle East and South Asia. In both areas it is capitalizing heavily on nationalistic and social ferment.

The situation in the Middle East is gravely aggravated by the danger of an Israeli-Arab conflict. Russia is operating recklessly in this zone, acting as if communism would be the gainer whether or not there is war.

Certainly Eden grasps the peril. We must assume that President Eisenhower and Secretary of State Dulles are equally aware of it. Yet the unhappy truth is that the West appears not to have the initiative either in the Middle East or in South Asia.

The need is for new imagination, new boldness. Policies designed for the days when communism was looking elsewhere will no longer do. All free peoples must voice hope that for the sake of the liberty they cherish, Sir Anthony and his American hosts find the beginnings of a fresher, more vigorous approach.

Eden's visit seems sure, too, to bolster his recently sagging prestige at home. He has been charged with many things, a good share of which added up to not doing enough. His trip to America is at least evidence he recognizes the need for action.

A meeting with Dulles and the President may serve as well to clear up any lingering misunderstandings that are left in the wake of Dulles' unfortunate plunge into the verbal jungles in the recent Life magazine article.

No one with the safety of the free world at heart could wish anything but prime success to the participants in this perhaps fateful seventh meeting of American and British leaders.

### More of the Memoirs

Former President Harry S. Truman is now unfolding the second volume of his lively memoirs. Like most writings in this category, they are not history but a contribution to history.

Mr. Truman, never one to dodge controversy, plunges right into another one by discussing the events that led to the Communist capture of China in 1949. He parcels out quite a lot of blame, but none of it seems to fall too close to home.

Certainly no one who has read even the most general account of that period wants to fasten responsibility on him. The Chinese debacle had many causes. But his method of reporting this sad chapter shows the same flaw that cropped up again and again during his presidential regime.

Mr. Truman seems constitutionally unable to acknowledge important error. He is fiercely loyal to his friends and to his own memory of events. Unfortunately, both of them have proved faulty on a number of occasions.

**First Killed**  
Colonel Elmer Ellsworth, of the New York Zouaves, who was killed in Alexandria, Virginia, May 24, 1861, is reputed to have been the first Union officer killed in the Civil war. At the request of President Abraham Lincoln, his funeral was held in the East Room of the White House.

"This Deep It's Politics---This Deep It's Suicide"

## The Washington Merry-Go-Round

By DREW PEARSON

**DREW PEARSON Says:**  
General MacArthur And Harry Truman Tangle Again Soon; Dulles Puts Too Many Bipartisan Eggs In The Walter George Basket; Ten Thousand Auto Dealers Descend On Washington.

WASHINGTON. — The Douglas MacArthur-Harry Truman feud is going to blaze into headlines again — thanks to Life Magazine.

Life editors have the advantage of reading Harry Truman's Memoirs before anyone else and have been using this to their own advantage. Mr. Truman's first installment on the Marshall mission to China was answered by Life in the same issue in which it was published.

In addition, Life editors slipped Gen. Douglas MacArthur an advance copy of Truman's Memoirs which refer to him.

This particular installment is not due to be published until late February, but MacArthur has already written a 5,000-word stinging rejoinder — courtesy of Life editors and his ghost-writer, Gen. Courtney Whitney.

The MacArthur answer is so hot that Life circulation experts are ordering around a half million extra copies.

**DULLES' ONE FRIEND**  
Reason why John Foster Dulles isn't getting as much bipartisan policy as he wants is that he pins everything on one Democrat, the much-loved elder statesman from Georgia — Senator George.

However, a lot of other Democrats don't relish the way George walked out on the Democratic party on tax reduction or other domestic matters last year when the White House invited him to lunch.

That's why George's influence on foreign affairs with other Democrats has diminished.

In handling the Bulganin-Eisenhower letter exchange, for instance, Secretary Dulles did consult Senator George. But he ignored other Democratic leaders completely.

At 11 a. m. Saturday, after release of the two letters already

had been decided, Congressman John McCormack of Massachusetts, Democratic leader of the House, telephoned Congressman James Richards of South Carolina, chairman of the House Foreign Affairs committee. Richards is supposed to know what the score is at the State Department just as much as George, but he didn't know. He hadn't been informed.

"I don't know anything more than what I read in the newspapers," he told McCormack caustically.

**AUTO DEALERS' GRIPE**  
Ten thousand "typically American" small businessmen met in the nation's capital this week in the opening gun of a pitched battle for survival.

They're the owners of the nation's auto agencies and, like thousands of other small businessmen around the country, they find themselves today on the "brink" of an uncertain future.

The auto dealers didn't sit around twiddling their thumbs and moaning, however. They worked through their powerful organization, the National Automobile Dealers Association.

"We're disturbed about the profit situation," explained W. L. Carpenter, a small Ford-Mercury dealer from Pontotoc, Miss., who sells about 175 cars a year. Carpenter employs 18 people, including his son-in-law, and grosses about \$500,000 a year.

"We're not making any money," Carpenter says, which is why attendance at this year's NADA convention is so much greater than usual.

"When we were making money there wasn't much reason to go to conventions." Sentiment among the dealers is aimed at the manufacturers, the chief gripe being overproduction of new cars. The dealers want output cut back to a reasonable level, so some of the sales pressure can be lifted. Overproduction, they feel, leads to factory pressure on them to sell an impossible quota of cars, also to "bootlegging," and to inability to give adequate service.

"We're here in Washington to demonstrate our power," agreed Carpenter. "These manufacturers don't like the NADA. We just want to show 'em we have some backing."

**GOVERNMENT REGULATION?**  
Asked whether he thought government action would be needed, Carpenter answered "No."

"I think the industry can solve the problem, when the manufacturers and dealers get around a table and talk in a way that will be profitable to both parties."

"Of course, we're not having much trouble down south. Mostly it's up north. We're not having any trouble with the Ford company, either. In our state we elect delegates every year from among the Ford dealers to go up to Detroit and talk with the factory people."

In another corner of the Sheraton-Park hotel lobby two Chicago dealers were talking. They were Jerry Cizek, a Chrysler agent, and M. F. McCarthy, who sells International trucks. Their feelings echoed Carpenter's.

"The industry should solve the problem without government intervention. It'll be better for the dealer, and better for the industry."

However, Cizek and McCarthy agreed that if the industry doesn't act, NADA will turn to the government. They were both glad their convention was being held in Washington, partly because NADA is making an impression on Congress.

A small minority of the dealers isn't alarmed about overproduction and bootlegging. They're the second-hand dealers, typified by Thornton Anderson of Philadelphia's Mayfair Motors.

"We like it fine the way it is," quipped Anderson. "The more new cars are sold, the more used ones there are, and the cheaper they are."

"As for bootlegging," Anderson said, "there isn't 10 per cent of the bootlegging that there was a year ago. The new-car dealers undercut us now. You can't make

## Thousand Workers Return To La Prensa Buildings for Rebirth of Seized Paper

Editors Note: The following dispatch on the impending rebirth of La Prensa was filed at Buenos Aires today by the president of the United Press. It presents a graphic description of events on the eve of an historic day for journalistic freedom.

By FRANK H. BARTHOLOMEW  
United Press Staff Correspondent  
BUENOS AIRES, Argentina (U.P.) — A thousand men and women entered the portals of two buildings 14 blocks apart in Buenos Aires today eager for the task of bringing back to life La Prensa, one of the world's great newspapers.

Through the high portals and past the vast opened iron doors of the main building on Avenida De Mayo came executive directors, reporters and the people of the business office. Into the composing room and printing plant on Chile and Azopardo streets streamed the compositors and pressmen.

The silent press room, immaculately clean, awaited the time a few hours hence when Dr. Alberto Gainza Paz will press the button and a free La Prensa will become part of a free Argentina.

In a corner of the press room, dwarfed by the gigantic presses required for the La Prensa of tomorrow, is a tiny press which will have no part in things to come. Its work has been done — and well. It is the hand-operated press upon which Dr. Gainza's grandfather printed the first copy of La Prensa 87 years ago.

La Prensa has been in the founding family four generations, including Dr. Gainza's sons, excepting five years when dictator Juan Domingo Peron seized the newspaper and began publishing it as his own Nov. 19, 1951. Peron held La Prensa by force and drove its famed editor into exile in the United States, but never succeeded in benefiting from its prestige and dignity.

A large picture of Peron was erected on one side of the entrance and his Evita on the other, both outlined in electric lights. The news columns of La Prensa were filled with his personal propaganda, its social columns with pictures of his wife.

But Argentina was not deluded by the synthetic La Prensa, and despite the peak of the Peron popularity its circulation sank from over a half-million to less than one hundred thousand.

Of the thousand people who entered the portals of La Prensa today more than 620 are veterans of the days of the newspaper under the Paz family. Most of them steadfastly refused to take part in the production of the stolen newspaper under Peron. Only five editorial employees went over to the dictator's banner and only two of them were key men.

Sixty-three-year-old Juan Farina walked proudly through the main portal of the handsome building on Avenida de Mayo today, typifying the extraordinary loyalty of the La Prensa organization. Juan's was a humble job and it will be again as office attendant and doorman for Dr. Gainza.

**Instructed to Return**  
When Peron seized the newspaper and Dr. Gainza escaped, first to Montevideo and later to New York, Juan left La Prensa, too. Instructed by Peron's lieutenants to return to his post, he said stoutly: "No. I work for Dr. Gainza Paz and none else."

Regularly during the days of mail censorship and terror, when one employee of the old La Prensa was arrested and 14 were injured, Juan Farina wrote faithful reports to Dr. Gainza.

His simple letters condemned a dime bootlegging any more. Note—Most of the dealers aren't sorry they got into the auto business. "It gets into your bloodstream," explained one, "and you can't get out."

Peron and all his works and prayed for the return of the Paz family and the dictator's downfall.

The envelopes, opened by the censors regularly, carried his name and return address. He even added his telephone number.

"Weren't you afraid?" he was asked.

"Afraid?" the old man replied. "Senior, I am a Spaniard."

Juan Farina is back at work today, after five long years, in the dignified old building on the pleasant Avenida de Mayo where the green leaves and trees wave in the pleasant summer breeze. Only the subway entrance seems anachronism.

On the other side of the avenue Argentines sit at coffee tables outside fragrant little cafes and watch the intensifying activity in the newspaper building as Dr. Gainza, Farina and the thousand others prepare to bring the newspaper back to life.

## Dior Introduces 'Arrow Look'

By BARBARA MILLER  
United Press Staff Correspondent  
PARIS (U.P.) — Fashion czar Christian Dior introduced today the "arrow look" for 1956 — a new silhouette that flattened bosoms but flat.

The Dior silhouette for the coming year, highlight of the Paris 1956 fashion collections, was as straight and thin as an arrow. He completely erased any trace of a curve this year as he introduced the "arrow look" to succeed the "A" and "H" lines of other years which had pushed the bust up to the breastbone.

Nearly 500 women crowded into Dior's plush salon on the fashionable Avenue Montaigne for the unveiling of his 1956 collection, the most awaited event of the Paris spring fashions.

The silhouette torso line rose straight as an arrow to the shoulders which dropped off like an arrowhead on both sides in oversized raglans and puffs.

The waist went straight up like a projectile and landed just under the bust. But the bust was gone and in its place was a line marked by belts and drapes.

The effect was spectacular, but Dior's new girdles, introduced with the new line, made an iron vest look simple by contrast.

Though it went much farther, the main details of Dior's 1956 collection carried on the main trends that have appeared in the other fashion collections which started this week.

Dior's show firmly settled the battle over the 1956 silhouette. The bosom, whether prominent or flat, is high. So is the waist. Shoulders are broader and hips are much thinner.

Husband's pocketbooks will be flatter.

**Meteorite Mass**  
Last meteorite to hit the United States crashed near Norton, Kansas, on February 11, 1948. It exploded 35 miles above the earth and a 2000-pound chunk buried itself 11 feet deep in a wheat field.

"I never saw anything like it!"

Today is Wisk day!  
See Pages 2 & 3, Section 2

## Sachs Favors Elimination of Sales Tax Boost

CHICAGO (U.P.) — Morris B. Sachs, candidate for the Democratic nomination for governor, said he favors the elimination of the 1 per cent Illinois "sales tax" increase and any other "unnecessary" tax.

In a statement issued Wednesday, Sachs also charged that his opponent for the nomination, party endorsed Cook County Treasurer Herbert C. Paschen, is "side-stepping" the issue of increased taxes.

He said "under an efficient, economical and businesslike administration of state affairs, an increased sales tax would not have been necessary."

Sachs chided Paschen for a statement made during a recent television address.

"It was a brazen disregard of the truth when he (Paschen) said the 22-member (Democratic) slate-making committee had any lawful right to speak for the great body of Democratic voters in Illinois."

Primary election law reserves the right of the people to choose their party candidates, Sachs said.

Copper is an element; brass is a combination of copper and zinc in varying proportions; bronze is an alloy of copper and tin.

BIBLE THOUGHT FOR TODAY

I went down to the potter's house, and, behold, he wrought a work on the wheels. — Jeremiah 18:3.

A multitude of influences mould our lives too. We should be careful that the great potter is not interfered with. He has a design for us. It is a beautiful one. Let no evil influences botch the task.

Great Bear and Great Slave, largest inland lakes in Canada, each are about one-half as large as Lake Michigan.

Address Thornton Minor Clinic, 911-S East Lincoln Blvd., Kansas City 9, Mo. This offer is exactly as stated above—no charge no obligation—no bill now or later.

**RCA Ready to Swing Into Mass Production Of Color TV Sets**  
BLOOMINGTON, Ind. (AP)—RCA is ready to swing into mass production of color television sets, it was announced today.  
Robert A. Seidel, executive vice president of RCA consumer products, said the Bloomington, Ind., plant is now geared to turn out one color TV set every minute on each of its production lines.  
The plant recently was converted for mass color TV production, at a cost of five million dollars. RCA has another color assembly line at its Indianapolis plant. The company plans to spend three million dollars more at the two plants.  
Seidel said that color TV prices would go down eventually but could not say how much or how soon.  
He said his firm expects to build and sell more than 200,000 color sets this year. Prices now range from \$695 to \$995.  
Coal mines east of the Mississippi river account for 90 per cent of the total U. S. production.

## Gunmen Terrorize Seven in Home; Escape with \$327

CHICAGO (AP)—Three gunmen who terrorized seven persons Wednesday night escaped with \$327 after a death threat failed to produce "big money."  
"You can kill me, if you will, but won't find any more money here," Dewart V. Smith, 61, said he told the three gunmen. "This is all we have."  
The trio gained entry into the Smith home by saying they were expressmen delivering a package. Smith said he was beaten with a pistol and bound, and his wife, three foster children and two guests in the home were bullied with demands for "the big money."  
Two robbers kept Smith in an upstairs bedroom trying to get him to disclose where his money was. The others were forced to sit at a dining room table with hands folded and heads bowed.

## American Soldiers Anger French Vets

PARIS (AP)—French war veterans were up in arms today because three American soldiers warmed their hands over the eternal flame at the tomb of France's unknown soldier under the Arc de Triomphe.  
The furor was touched off by an angry letter to the newspaper France Soir in which an unidentified French veteran complained he was an "indignant witness" to the incident.  
He demanded "short lectures" on French history for foreign troops before they are allowed to roam through Paris.  
Guards at the tomb said the incident occurred about three weeks ago. They said three American GIs walked up to the tomb and began warming their chilled fingers over the eternal flame.

## Scheele Predicts Vaccine for 70 Million Children in 5 Months

WASHINGTON (AP)—Surgeon General Leonard A. Scheele predicted today that enough polio vaccine may be released in the next five months to inoculate 70 million children.  
He also disclosed that the vaccine release rate is expected to hit 16 million doses a month by July. And he estimated the total output for 1956 will reach a whopping 166 million doses.  
By the end of the year, Scheele reported, it is possible enough vaccine will have been released in the inoculation program to provide three shots to all of the nation's expectant mothers and 65 million children.  
Scheele said, in a special report to Congress, that the 1956 supply outlook is based on preliminary estimates provided by the vaccine manufacturers.

## Two Reappointed By Gov. Stratton

SPRINGFIELD (AP)—Gov. William G. Stratton today announced the reappointment of J. F. Schlafly Jr., Alton, to the bi-state development agency for a five-year term.  
Also announced was the reappointment of C. W. Klassen, Springfield, to the Ohio River Valley Water Sanitation Commission for a six-year term. Klassen is chief state sanitary engineer.  
Neither position provides compensation, and Schlafly's reappointment requires Senate confirmation. The bi-state group is a coordinated Illinois-Missouri commission.  
Stratton appointed William Watts, Jerseyville, as Democratic minority member of the state advisory board for the personnel department.

## Births

To Mr. and Mrs. David Farrell, Lincoln, Nebr., a girl born Jan. 29, weighing seven pounds, 13 ounces. The baby, named Yvonne Marie, was born at the Air Force base hospital, Omaha, Nebr. The mother is the former Miss Marlene Thomas of this city and the maternal grandmother is Mrs. Pauline Thomas, Harrisburg.

## Woman Killed in 3-Car Smashup

HAMMOND, Ind. (AP)—A Garden Grove, Calif., woman was killed and four other persons were injured in a three-car smashup on U. S. 41 south of here Wednesday night.  
Mrs. Wilma B. Webb, 40, died in St. Margaret's hospital shortly after the collision.  
In critical condition were John D. Webb, 41, Garden Grove, and Constantine A. Carras, 26, Hammond. Hospitalized with minor injuries were Mrs. Webb's husband, Adam, 38, and Mrs. Webb's father, Orville Farney, 68, Hoopes-ton, Ill.  
State police said the John Webb car went out of control and struck cars driven by Carras and Marjorie Marshall, 24, Serena, Ill.

## Marriage Licenses

More than 25,000,000 tons of freight were unloaded by the United States Army at Yokohama, Japan, during the first three years of the conflict in Korea.

## Keyserling Hits Farm Program As 'False Cure'

SPRINGFIELD (AP)—Economist Leon H. Keyserling said today the Eisenhower administration is applying the "false cure" of two generations ago to the farm problem and urged a return to rigid 90 per cent of parity price supports.

Keyserling, former chairman of President Truman's Council of Economic Advisers, was keynote speaker at the second annual convention of the Illinois Farmers Union.

He said present national farm policy "fallaciously" assumes that overproduction is the main reason for low farm income. The policy, he said, then "seeks to drive the farmer toward lower production by punitive deflation of farm income."

Keyserling said the policy "thus applies to the farmer in the middle of the 20th Century the same false cures that were applied to the worker and businessman two generations ago when the supposed cure for unemployment and business losses was to let wages fall further and let more small businesses fail."

He said the administration soil bank plan to reduce surpluses by taking land out of production "might be desirable if the withdrawal of acreage from cultivation was accompanied by other sound adjustments in production and consumption, and if payments to the farmer... were adequate supplementation of his dwindling income."

But he said, "This is not the case. The current proposal is a further follow-up of the false idea that bludgeoning or coaxing the farmer into producing less will automatically restore his income to appropriate levels."

Keyserling said a 22 per cent increase in farm production will be needed by 1960.

New York was the 14th state to require periodic inspection of motor vehicles.

## Soviet Consul General, Staff Ordered Out of Capetown, South Africa

CAPETOWN, South Africa (AP)—Foreign Minister Erick Louw ordered Russia's consul general and his staff Wednesday to get out of the country by March 1.  
Louw said the Soviet consulate had served as a channel for communication between Russia and subversives here and that members of its staff had violated the law by serving drinks to natives.

## Which custard has the TOPIC?\*

\*The custard on the left has the Topic. Tastes and looks like custard made with ordinary milk—but so much smoother.

**Always firm, smooth and delicious—that's custard made with fresh-tasting Topic!**

Imagine cooking with a wonderful new kind of dairy product that gives you perfect, failure-proof results every time!  
It's Topic—not a canned milk, not evaporated milk, not a powdered product—but a remarkable new achievement of dairy science. You'll save money, too... for cooking with Topic instead of ordinary milk can save you up to 1/2!

So make the Topic custard test today. Then try Topic in your favorite casserole recipe. And in soups, sauces, puddings, cream pies.  
Buy fresh-tasting Topic in your grocer's canned milk section. You'll agree that in cooking and baking, Topic does everything milk does—at far less cost!

lower in calories  
high in nutrition

Whipped Topic has 70% less calories than whipped cream, and 30% less calories than ordinary table cream!

Topic is fresh whole milk, with all the fat and half the water removed...and with light vegetable oils added. And Topic has extra units of Vitamins A and D!

**Topic**  
PERFECT FOR COFFEE AND WHIPPING, TOO!

## Truman Meets With Harriman And Kefauver

NEW YORK (AP)—Former President Harry S. Truman today met with two presidential hopefuls—"inactive candidate" Gov. Averell Harriman of New York, and declared contender Sen. Estes Kefauver of Tennessee.

The former chief executive breakfasted with Harriman at the governor's home and then returned to his hotel to confer with Kefauver who requested the meeting.

Mr. Truman and Harriman talked to the press after breakfast and said they agreed that there was "arrogance" in the White House which has become "dominated by big business and special interests."

"We think it is time that that situation is changed," Harriman said. "We've got to get back to the days when America was respected and people had confidence in the consistencies of our policies."

Mr. Truman and Harriman said they had not discussed "personality" issues. Mr. Truman added that he would be "neutral" concerning the Democratic presidential nomination until the convention next summer.

Asked if his conference with Kefauver indicated that his so-called "feud" with the Tennessee Democrat had been patched up, Mr. Truman replied:

"I never had a feud with Kefauver. I admit I blocked his nomination in 1952."

Mr. Truman refused to answer the question of whether he would do any blocking at the 1956 convention, but he added "I'm in no position to do it now." He said a president can always dominate his party's convention and would "be foolish if he didn't."

Mr. Truman speaks tonight at a 200-a-plate fund-raising rally of Democratic party faithful. He said his speech would be an "important" speech on foreign policy. It was expected to include strong criticism of the Eisenhower administration's foreign policy.

### Waterfowl in Illinois Climbs To 1.5 Million

SPRINGFIELD (AP)—Illinois' waterfowl census climbed sharply to more than 1.2 million in mid January, the State Conservation Department and the U. S. Fish and Wildlife Service reported today.

The report, prepared by Marshall L. Silenett, U. S. game management agent at Peoria, showed 17,000 more Canada geese and 243,000 more mallards in Illinois than were reported in a similar survey in 1955.

Total Illinois duck population was 1,343,544, including 1,278,220 mallards. Total number of Canada geese was 190,943.

More than half of about 500,000 ducks observed on the Illinois river were found between Peoria and Havana.

Nearly 60,000 of the ducks were found along the Mississippi river, the greatest number of these in Pool 26, the Hatchtown area at Crab Orchard, Mermet and along the Ohio river bottoms.

The Illinois waterfowl hunting season ended Dec. 23.

### Second Man Indicted for Oil Fraud, Surrenders

SPRINGFIELD (AP)—The second man indicted in an alleged \$12 million-dollar fraudulent oil promotion scheme surrendered to the U. S. marshal here Wednesday.

Allen A. Borton, Hillsdale, Mich., turned himself in and posted \$10,000 bond to insure he would "appear forthwith" when called to court at either East St. Louis or Danville.

Borton was named in an indictment last month with Homer S. Snowden, a Texas oil promoter arrested earlier.

The two were charged with violating the Securities Act of 1933 by selling fractional interests in oil and gas well leases not registered with the Securities and Exchange Commission and with mail fraud.

The indictment said Snowden and his associate falsely claimed they could guarantee investors in oil properties that their investment would be transferred to a new oil lease if the first one did not produce. They allegedly claimed they would continue shifting investors' interests to new leases until a producing well was hit.

U. S. Atty. Clifford Raemer at East St. Louis said the leases were sold to many Illinois investors, mostly at Kankakee, Chicago and Champaign.

Federal officials estimated the promotion scheme involved \$12 million.

## Charges Courts Hampering Narcotics Curbs

CHICAGO (AP)—A narcotics agent complained today that the courts are hampering efforts to curb the illicit drug traffic.

Albert E. Aman told an Illinois Legislative Commission that the "steady line" of adverse court decisions recently has been "severely curtailing" the work of local and federal police.

Aman, U. S. Bureau of Narcotics supervisor for Illinois, Indiana and Wisconsin, said these rulings have restricted the use of confessions, and the powers of police to arrest without warrant and to search for and seize contraband.

He said the decisions expand the "immunity and sanctuary of the criminal," and in some cases result in "frustration" and a "lack of effectiveness and efficiency" of law enforcement agencies.

Aman testified in favor of stiffer penalties for narcotics peddlers, and for addicts who are second offenders.

"The sooner we quit feeling sorry for adult addicts and deal with them harshly, the sooner we'll eradicate this evil," he said.

### Auto License Plates Used To Help Boost States

CHICAGO (AP)—More than half the states believe it pays to advertise.

The license plates of 27 states in 1956 carry slogans or messages. The check was made by the Disabled American Veterans organization which distributes tags of tiny licenses in its drive for contributions.

The DAV reported that messages appeared on 21 license plates in 1955, 20 in 1954 and 19 in 1953.

The United States contains approximately 375,000 grocery and combination grocery stores.

## Woman Travels by Snowshoe, Snowmobile, Dogsled, Auto, Bus, to Reach Doctor

DULUTH, Minn. (AP)—Mrs. Arthur Madsen, 34, decided she would take a doctor when her fourth child is born and traveled 150 miles from her Canadian northwoods home to reach one.

The trip was by snowshoe, snowmobile, dogsled, automobile and bus.

"If nothing happens, I will go on to St. Paul, Minn., or maybe Duluth, Ill., the doctor's home. He is taking care of the other two children."

"I don't have a doctor here or in St. Paul really, but at Duluth I know six doctors who have been up to our place on fishing trips," she said.

Mrs. Madsen, whose husband is a Canadian guide, planned to stay here until Saturday. She said she wanted to go on to St. Paul where her father lives.

She said she expects the baby "any time now."

Started Trek Saturday

Mrs. Madsen and her oldest son, Chris, 6, left their home on the Canadian side of Saginaw Lake Saturday morning in a snowmobile, an automobile powered by a half-truck.

They were unable to continue their trip after crossing the lake because the dogsled they planned to hitch a ride on was loaded with trappers' supplies. So Mrs. Madsen said she and her son built a fire, and left alone, waited for her husband to show up. The fire was a signal for him to come.

Her husband, Arthur, arrived with a toboggan, which he dragged across the lake ice, and snowshoes. They loaded their baggage on the toboggan and set out on snowshoes for the end of the trail three miles away.

The last quarter of a mile Mrs. Madsen and her son rode on a dogsled sent out by the trappers to meet them.

Plow Opens Road

A weekly mail truck was to take Mrs. Madsen and her son into Grand Marais, Minn., but failed to arrive because of a 17-inch snowfall.

Mrs. Madsen and Chris then got a lift by automobile from an Indian guide, George Plummer, who

## Benson Urges Speedy Action on Farm Program

PORTLAND, Ore. (AP)—Secretary of Agriculture Ezra T. Benson today called for speedy enactment of the administration's new farm program to help farmers who cannot wait for some more or less distant tomorrow to bring them opportunity to share in an unprecedented prosperity now — this year — in 1956.

He plugged President Eisenhower's proposed nine-point farm program as the farmer's way out of low income problems, high production costs, overproduction of crops, and huge surpluses.

He made the statements in a program to help farmers this afternoon before the National Association of Wheat Growers.

We have proposed a program that will help farm families — families of wheat growers — not just the growers themselves — Benson told an audience of wheat growers.

He said the soil bank, which he called the backbone of proposed new farm legislation, would provide "immediate income" for farmers hard-pressed for cash.

Soil bank certificates, based on normal acreage yields, participate in the farmers' way out of low income problems, high production costs, overproduction of crops, and huge surpluses.

Benson repeated the belief that the proposed program "offers no nostrums or panaceas. It is a sound, logical attack on our most urgent problem, the surplus. It strikes at both sides of the price-cost squeeze."

The "plus" would be additional income for 1956," he said.

Benson repeated the belief that the proposed program "offers no nostrums or panaceas. It is a sound, logical attack on our most urgent problem, the surplus. It strikes at both sides of the price-cost squeeze."

"I never saw anything like it!"

Today is Wisk day!

### Judge Awards \$54,000 To Four Children of Parents Killed by Auto

CHICAGO (AP)—David M. Craig, Kenosha, Wis., must pay \$54,000 damages to four children whose parents were killed in an automobile accident, a federal judge ruled Wednesday.

Craig's automobile collided with another driven by Edmund Spretzere, Chicago, in an accident near Braintree, Ill., January 13, 1953. Spretzere and his wife Mildred died in the accident.

The surviving Spretzere children are twins Raymond and Richard, 18; Edmund Jr., 19; and Suzanne, 12.

# Tenley Albright Wins Women's Olympic Figure Skating Championship

CORTINA, Italy (AP) — Pert Tenley Albright, 20-year-old Newton, Mass., ice ballerina, fought off the pain of an ankle injury today to win the women's Olympic figure skating championship with a brilliant performance in free figures.

Miss Albright, first American ever to win the Olympic women's crown, thus completed a U. S. sweep of the two Olympic figure skating championships. Hayes Alan Jenkins of Colorado Springs, Colo., won the men's title Wednesday. These are the only two gold medals America has won in the 1956 classic.

Carol Ann Heiss, 16-year-old Ozone Park, N. Y., girl, finished second and Ingrid Wendt of Austria, the European champion, placed third. Miss Heiss received the most enthusiastic applause from the crowd of 8,000.

The attractive New England girl, who became a world champion figure skater after recovering from a childhood polio attack, turned in a near-flawless performance in the free figures despite a throbbing pain in her right ankle. Miss Albright had cut her leg above the right ankle on Jan. 19 while practicing for the Olympics. While executing a maneuver her left skate blade had cut into her leg.

"Hurt Like the Devil" Miss Albright was completely exhausted after today's free figures which comprised the final 40 per cent of the whole figure skating competition.

"The injury hurt like the devil this morning," she said after completing her chore. "I didn't feel it quite as much during my performance because I was so excited. But now I almost can't stand the pain."

Earlier in the day, Sixteen Jernberg of Sweden, 26-year-old lumberjack who finished second in two previous Olympic cross coun-

try ski events, won the gruelling 50-kilometer race against the best Russian and Finnish marathon skiers.

Jernberg thus became the first athlete of the 1956 Winter Games to win three Olympic medals. He had won silver medals for finishing runnerup in the 30-kilometer cross country event last Friday and in the 15-kilometer race on Monday.

The triumph by the sturdy Swede shut out the Russians from any gold medals in the men's cross country skiing at these Olympic games. Veikko Hakulinen of Finland won the 30-kilometer event and Halgeir Brenden of Norway the 15-kilometer race.

This was Sweden's second gold medal in the 1956 games, the first having been won by speed skater Sigge Ericsson.

**First-Place Total** In addition to third place, Soviet skiers also took fifth which earned Russia a total of seven points in the 50-kilometer event and raised its first place total of 101 points in the unofficial team standings.

Jernberg's victory moved Sweden into second place after the 50-kilometer race with a total of 52 points.

Finland's Eero Kolehmainen placed fourth in 2:56:17.

In the Olympic hockey tournament, Canada bounced back from its upset defeat at the hands of the United States on Tuesday by trouncing Germany, 10-0. The victory kept alive Canadian hopes for a successful defense of the Olympic title.

**Stonefort, Creal Springs to Play for Third Place in Tourney**

Stonefort will meet Creal Springs this evening for third place in the grade school basketball tournament being held at Chittiville.

The host school faces Energy for the championship.

In the first round of the tourney, played Tuesday, Stonefort beat Freeman Spur 51-19 to advance to the semifinal round. Creal Springs beat Pittsburg in the other opening round game.

Last night's semifinal saw Chittiville win over Stonefort 71-53 and Energy edge out Creal Springs.

Stonefort got away to a slow start, trailing 15-5 after a quarter of play and could never get into contention.

Scoring — Stonefort: O'Keefe 6, Charles Smith 20, Bill Smith 17, Craig 6 and Redwine 4; Chittiville: J. Steinmetz 13, Woodis 9, McSpadden 26, G. Steinmetz 19 and Moffinger 4.

## Looking At Sports

By BILL MELTON

Galatia high school's basketball team will be crowned Saturday, Feb. 4, between the preliminary and varsity games featuring Eldorado and Galatia. The queen will be one of these five students — Donna Eubanks, Barbara Hale, Brenda Pulliam, Brenda Starke and Betty Tate. The candidates were nominated by members of the varsity basketball team, but the queen will be elected by the entire student body.

Some good basketball was on display at Davenport gym Tuesday night when four independent teams played a polo benefit program. In the first game Herrin beat the Harrisburg Dairy Brands, 92-48, and in the nightcap the Colored Vagabonds won from Johnston City, 59-45. The program was co-sponsored by the two American Legion posts in Harrisburg—Olus Neeley Post 850 and George Hart Post 167. Paul Gelish is Commander of Post 167 and Ray Johnson Jr. is commander of Post 850. Jim North promoted the event.

Carrier Mills and Nashville will not participate in the Egyptian Holiday basketball tournament next December, with Sterling and Murphysboro replacing them. Completing the eight-team group will be Mt. Vernon, Harrisburg, West Frankfort, Carbondale, Du Quoin and Edwardsville. The tourney will be played at West Frankfort Dec. 26-29. There will be a consolation bracket, insuring all teams at least two games in the meet. In years past the tourney was a single elimination affair.

A meeting is scheduled for Feb. 15 in Eldorado at which time a new athletic conference may be formed. Five schools — Eldorado, Carmi, McLeansboro, Metropolis and Johnston City—will be represented at the meeting. Principals and coaches from the schools have met previously and exchanged commitments for the next two years so that officials could figure out just how quickly actual conference schedules could begin.

Roy O'Neal, writing in the Carmi Times, states that Carmi is very much interested in joining a conference, but prefers to become a member of the North Egypt organization. He states that Carmi's bid to join the loop two years ago was rejected by the other members, but Carmi will make another application soon. If the bid is again turned down, Carmi will undoubtedly enter the proposed new loop, according to O'Neal.

There is also the possibility that Norris City will become a member of the conference, O'Neal states. Norris City is interested in becoming affiliated with a conference and it is possible the school will start football this fall. If the gridiron sport is added to the Norris City athletic program it would make the White county school acceptable.

It is known that Norris City was invited to join the Greater Egyptian conference after Vienna submitted its resignation, but Norris City rejected the invitation.

Maybe the football plans, and hopes of getting into a larger enrollment league, was responsible for Norris City's rejection. Alfred Adams, Eldorado head coach and athletic director, stated today he had high hopes the conference would be organized and added "there is a possibility of a conference track and field meet this spring."

Adams also stated Eldorado was still looking for another football game for the 1956 schedule. "We need an opponent for Nov. 9," Adams declared. However, Eldorado couldn't enter into a home-and-home agreement, as Johnston City will fill the date in 1957 and thereafter.

In years past Eldorado and Fairfield played a Veterans Day game, but the series was not renewed following the game played in 1955.

As it stands now, the Eagles will play Anna, McLeansboro, Harrisburg, Christopher, Carmi, West Frankfort, Cairo and Benton in that order.

During a special assembly at Carrier Mills high school Tuesday morning the championship trophy won by the Wildcats at the Saline County Basketball Tournament was officially presented to the school by the cage team.

## Fight Results

**By United Press** CHICAGO—Cisno Andrade, 136, Los Angeles, outpointed Jimmy Carter, 140, New York (10).

**Paddy Driscoll To Coach Bears**

CHICAGO (AP)—Paddy Driscoll today was named head coach of the Chicago Bears to succeed owner George Halas.

**Bobo Olson Favored To Recapture Crown**

NEW YORK (AP)—Broadway odds-makers installed Carl (Bobo) Olson the favorite at 7-5 today to recapture the middleweight crown from Sugar Ray Robinson in their return title fight at Los Angeles April 27.

More than 97½ percent of the atmosphere lies below an altitude of 90,000 feet or approximately 17 miles, the highest level yet attained by man.

The Daily Register, Harrisburg, Illinois  
Thursday, February 2, 1956 Page Seven

## San Francisco, St. Francis Only Major Unbeaten Teams As Temple is Upset, 67-66

**By United Press**

And then there were two—San Francisco and St. Francis. Those were the only major-college teams left on the unbeaten list today as mighty Temple was charged with a stunning 67-66 upset by Muhlenberg that ended the Owls' winning streak for the season at 13 games.

Temple came to grief in the hard fought game at Allentown, Pa., Wednesday night after falling 18 points behind in the early going, making it up midway in the second half, and then waging a see-saw battle for the last 10 minutes.

Temple, ranked seventh nationally by the United Press Board of Coaches, included a 12-point victory over Kentucky in its winning skein.

And so only San Francisco (15-0) and St. Francis of Brooklyn (14-0) are left alone in the unbeaten class among major colleges. St. Francis was reported unofficially to have accepted a bid to the National Invitation tournament, the third team picked for the 12-team field.

**Kentucky Downs Duke**

Kentucky scored a stirring 81-76 victory over Duke at Lexington, Ky., Wednesday night in a game next December, with Sterling and Murphysboro replacing them. Completing the eight-team group will be Mt. Vernon, Harrisburg, West Frankfort, Carbondale, Du Quoin and Edwardsville. The tourney will be played at West Frankfort Dec. 26-29. There will be a consolation bracket, insuring all teams at least two games in the meet. In years past the tourney was a single elimination affair.

Dayton, the nation's No. 2 team which was knocked from the unbeaten ranks by Louisville last Saturday, returned to action and to the winning column with an

## SIU Rallies to Nip Eastern Illinois, 87-83

**By United Press**

Southern Illinois rallied in the final minutes to nip favored Eastern Illinois, 87-83, at Charleston Wednesday.

It was the first defeat of the season for Eastern on its home court. Eastern now has a 5-2 record and Southern has a 4-2 mark in Interstate Conference competition.

Southern had a commanding 45-31 lead at halftime, but deliberate Eastern tactics whittled Southern's advantage throughout the second period. Eastern grabbed a 66-55 lead with about 10 minutes left before Southern spurted away with the victory.

Sharp-shooting Al Meyer scored 35 points to lead Millikin to a 105-92 triumph over Illinois Normal in a non-conference tilt at Normal Wednesday.

Roger Lotchin netted 25 points for the losers.

## Robin Freeman Boosts Big Ten Scoring Average

CHICAGO (AP)—The third best single game scoring effort in Big Ten history boosted the scoring average of Ohio State's Robin Freeman to 33.2, one of the highest marks he has held this season, conference basketball statistics showed today.

Freeman dropped 46 points in the Buckeyes' losing effort against Michigan State Saturday, a total exceeded twice by Don Schlundt with record-setting and record-breaking performances of 47 points.

In the same game Michigan State's Julius McCoy netted 40 points to improve his per game average to 28.3, second to Freeman, and well ahead of Dick Miller of Wisconsin, third in the league individual scoring race, who has 21.8 points per game.

Freeman has connected with 452 per cent of his field goal attempts so far and McCoy on 422, but both trailed Illinois' Billy Ridley, in eighth place in scoring, who has a 486 percentage to be best among the top 11 scorers, and Indiana's Wally Choice, leader among the top 20 scorers with a 536 average.

Illinois, only team unbeaten in conference play with five straight wins, improved its statistical rating as the top offensive club in its Monday win over Minnesota.

The Illini were the loop's top scoring team, over 90 points a game, in first place in field goal accuracy with 411 and in free throw accuracy with 789.

Ohio State, tied for fifth place with a 500 percentage, was second in offense with an 83-points-per-game scoring average.

**Play Semifinals in District Grade Tourney At Ridgway Tonight**

Muddy, New Shawneetown and St. Joseph's of Ridgway advanced to the semi-finals of the district grade school basketball tourney being played at Ridgway by taking victories last night. They joined Old Shawneetown, who won its way into the semi-finals Tuesday evening.

Wednesday's three-game session saw Muddy beat Equality 50-31, New Shawneetown take Galatia 54-38 and St. Joseph's defeat Omaha 45-39.

easy 73-37 decision over Loyola, Ill., using only one first-stringer in the game, but taking a 42-15 halftime lead. Dayton's record now is 15-1.

A top conference game saw Arkansas nip Texas Christian, 74-72, to tie Southern Methodist for first place in the Southwest conference. The co-leaders will clash on Saturday night.

**Other Top Games**

In other leading games: Holy Cross, ranked 15th nationally, pushed its record to 14-2 with a 97-60 romp over Creighton; All-American St. Green scored 37 as

star-studded Quantico Marines, 88-84; Yale trounced Brown, 81-53, in the Ivy League; Richmond edged Virginia Tech, 66-60, in the Southern conference; Julius McCoy scored 27 to lead Michigan State to an 85-78 win over Detroit and a new school career record of 1,134 points; Oklahoma City took an 81-66 win over Loyola, La.; Georgetown, D. C., handed St. Joseph's, Pa., its third loss in 16 games, 84-72; Syracuse beat Cornell in overtime, 99-94; Fordham downed Connecticut, 82-73; Mississippi St. trounced Tampa, 89-64; Penn St. beat Navy, 70-65; and Army edged Albright, 75-71.

## Harry Grayson's SCOREBOARD

### St. Louis Hawks' Bob Pettit Succeeds Mikan as Top Cager

**By HARRY GRAYSON**  
NEA Sports Editor

NEW YORK (NEA) — Red Auerbach, who coaches the Boston Celtics, sat in the club car of a train hustling toward the Big Town and laughed at something he was reading in a magazine. "This guy," Auerbach said, "wrote that my Bob Cousy is revolutionizing the game with his behind-the-back dribbling and passing."

"I wonder what he thinks we were doing back in the old days of pro basketball. You had to sell the crowd some way, so you did it with a lot of tricks. Davey Banks was doing things behind his back when he was only a rookie with the Old Celtics. And how do you think Abe Saperstein and the Globetrotters have been making all that money for so long?"

"DON'T GET ME WRONG," Auerbach went on. "I'm not against Cousy's style. He's tremendous for me as a player. And just as important to the game itself, he's biggest attraction in basketball today. Everybody wants to see him play."

"That's why I think they should get behind this Bob Pettit," cut in Red Holzman of the St. Louis Hawks.

"There's your successor to Mikan. He's the real big man in the game today. The guy can do anything."

After personal inspection, there is complete agreement here. Pettit is a huge (6-9, 230-pounder) and mobile crew-cutted young man out of Louisiana State University who currently operates as a Hawk.

It has been some time since we've seen anybody this big who can do so many things on a basketball floor. He is as dangerous with outside shots as he is with layups, hooks and rebounds.

IF YOU PUT EVEN a half-sized guy on him, you're in trouble. This Pettit can run with the best of them, stop and start like a small man. And he has the quick hands which make it a pleasure to toss passes to him.

"When he came into the league last year," Joe Lapchick of the Knickerbockers says, "I watched him till mid-season. Then I had to say something to him. I grabbed him by the arm and said, 'Great! You're great. And don't ever forget it. Go out there and play like it.'"

"I think he's one of the best things to happen to basketball since I've been around."

This has been borne out by both the game-by-game figures and the financial jottings of the St. Louis club.

**HE'S NOT POPULAR**—Lord Clayton Littlebrook receives a royal going over from two opponents during a four-man dwarf wrestling match at Paris' Palais Des Sports. Sky Low Low, left, is kicking him and Major Tom Thumb applies a facial massage. Lord Clayton's partner was temporarily out of action at this time.

## College Scores

### Swaps Nominated for Gulfstream Handicap

HALLANDALE, Fla. (AP)—Swaps, the colt who whipped Nashua in last year's Kentucky Derby, has been nominated for the March 7 running of the \$50,000 added Gulfstream Park Handicap. The colt, who lost his only 1955 race to Nashua in a special race in Chicago, has been suffering from a foot injury and was supposed to make his first start of the year in the San Carlos Handicap at Santa Anita Wednesday. However, he was scratched when his trainer found a sore spot in the mending foot.

## Bull Dogs Play Mt. Vernon Here Friday, Travel to Rantoul Saturday

The Harrisburg Bull Dogs resume South Seven conference basketball play Friday night when they entertain the high-flying, red-hot Mt. Vernon Rams at Davenport gym.

Then on Saturday Coach Lawrence Caluffetti will take his boys to Rantoul, up north of Champaign, for an evening contest.

Couch Harold Hutchings' Rams are leading the league with eight wins and one loss, hotly pursued by the Herrin Tigers. For overall play, Mt. Vernon is 15-3.

Harrisburg gave Mt. Vernon a good game on the Ram floor a couple of weeks ago, staying with the leaders during the first half. The Bull Dogs looked good in the Saline county tournament, just ended, too, and a good game is in prospect here Friday night.

There are two other South Seven games that evening. West Frankfort travels to Marion and Centralia to Benton. Herrin meets Johnston City at Herrin in a non-conference tilt.

Other Saturday evening games: Eldorado at Galatia, Metropolis at Carrier Mills, Salem at Vandalia, Carterville at Johnston City and Decatur Lakeview at Pinckneyville.

The South Seven standings:

Team	Won	Lost
Mt. Vernon	8	1
Herrin	6	1
West Frankfort	4	3
Centralia	4	4
Marion	4	6
Benton	1	6
Harrisburg	1	7

## Knicks Defeat Warriors, 105-104

**By United Press**

The New York Knickerbockers seem intent on giving departing Coach Joe Lapchick a good going-away present.

Since Lapchick announced Monday that he is retiring at the end of current National Basketball Assn. season the Knicks have run off two straight victories and now are only 1½ games back of second-place Boston in the Eastern Division.

Ray Felix, long one of Lapchick's favorites, provided the Knicks with their latest victory Wednesday night by sinking two free throws with seven seconds remaining in the second overtime period to sink the Philadelphia Warriors, 105-104.

Elsewhere, the Minneapolis Lakers nipped the Celtics, 107-106, on Vern Mikkelsen's last second basket and the Rochester Royals handed the Syracuse Nationals their ninth straight road loss, 83-77.

### Randy Jackson Signs His First Dodger Contract

**By United Press**

Randy Jackson, who had to be talked into playing professional baseball, figures he'll have to go all out to beat Jackie Robinson for the third base job at Brooklyn, but his bosses insist the job already is his.

Jackson, who signed his first Brooklyn contract Wednesday, came to the Dodgers in December in a deal that sent Don Hoak, Walt Moryn and Russ Meyer to the Chicago Cubs in exchange.

The long-ball hitting infielder replaced Bill Serena at third base for the Cubs in 1951, but replacing Robinson, Brooklyn, figures to be a lot tougher job, especially since Jackie has indicated the job is his and Randy will have to beat him out to get it.

"We didn't get Jackson for bench duty," Vice-President Buzzy Bavasi said when the club acquired Jackson. "He's going to be our third baseman and ought to hit real good in Brooklyn."

Manager Walter Alston has said right along that third base is Jackson's and Robinson will have to beat him out to get the job.

"I never saw anything like it!"

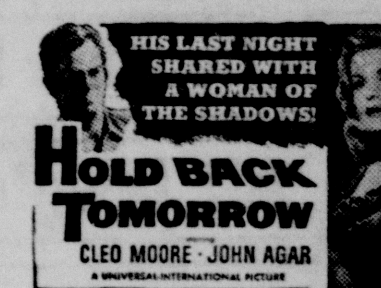

Today is Wisk day!

Coal's importance as a commodity in river traffic can be gauged by the fact that 23 of the 129 barge terminals on the 651-mile Tennessee River are for the exclusive handling of coal. Seven of the terminals handle coal bound only for electric utility boilers.

More than 62,000,000 tons of coal are burned each year to produce the electric power needed by four leading industries, the chemical companies, primary metals, the stone, clay and glass products group, and paper and allied products.

### British Churchman Blasts Hooligan-Like Wedding Ceremonies

LONDON (AP)—A British churchman, fed up with "laced up" bridal couples and friends and relatives who behave like "hooligans," today laid down a code of etiquette for wedding ceremonies.

"I am appalled and often sickened by the shocking behavior" at weddings, said the Rev. G. S. Crookshank of St. Andrew's church.

Among Crookshank's pet peeves are: Bridegrooms who sit in a front pew smoking cigars while waiting for the bride.

Brides and grooms "laced up" with strong drinks before the services.

"Catechisms" from the audience during the ceremonies.

Crookshank expressed hope that

his words "may shame some people into behaving less like hooligans or a tribe of monkeys and more like decent men and women—even if they are not practicing Christians."

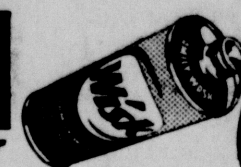

Only six examples of Shakespeare's signature are extant today.

"I never saw anything like it!"

## Home Economic, Commerce Departments Offer Variety of Classes at High School

Two departments of the Harrisburg Township high school, which are very seldom given recognition, are the Home Economics and Commercial departments. Both are constantly busy and offer a variety of classes.

For instance, the Home Economics department consists of Homemaking I and IV, taught by Mrs. Stella Harris, and II and III, instructed by Mrs. Marshall Cothran. Homemaking I and II is for girls who have never completed these courses before, while III is for the experienced girls. Homemaking IV is called Family Living and is open to senior girls who never had Homemaking before.

This department offers a club, the FHA (Future Homemakers of America), which continues the study of homemaking. They have numerous projects and activities, which are carried out throughout the year. They cook for several banquets held during the year and are always baking cookies and fixing punch for the various dances and teas. Their latest project was a box supper and dance, entitled "The Chuck Wagon Dance." Here, money was raised from the boxes for the FHA fund.

The Commercial department, instructed by Mrs. Martha Parkhurst, Mrs. Wilma Hunter, and Mrs. Ted Cain, offers the subjects: Business English, which enables the students to actually work in a business store downtown; Bookkeeping, Shorthand I and II; Typing I; Clerical Typing II; Transcription; and General Business. During Christmas the students of this department were responsible for printing song sheets to sell to several caroling groups.

If there is any typing to be done, the Commercial department is often called upon and can be depended upon to do a good job. Two clubs are sponsored by the Commerce department—the IOOA and the Future Business Leaders of America.

## AROUND SPRINGFIELD

By DON E. CHAMBERLAIN

### Women Respond to Party Leaders' Emphasis in Filing for Offices

SPRINGFIELD, Ill. (Special)—Women have responded to the primary filing emphasis which Illinois Republican and Democratic leaders have placed on their desirability, as candidates for state and district offices. Only one is a candidate for a statewide office but there are 42 who have filed petitions with Secretary of State Charles F. Carpenter, for district congress, the General Assembly and for delegate.

The lone woman to seek a statewide office is Mrs. Earle Benjamin Searcy, Springfield, who filed for the six-year term of state supreme court clerk. The widow of the late clerk, she currently holds the office by virtue of appointment by the high court but she will be on the Republican ballot for it in the April 10th primary without opposition.

Both Gov. William G. Stratton and Chicago Mayor Richard J. Daley advocated more women running for office and in response to this 24 are listed as seeking party nominations for district congress and the General Assembly with 18 standing for delegate or alternate delegate to Republican and Democratic national conventions this summer.

Four women are candidates for congress, two of them in one district where incumbent Republican Mrs. Marguerite Stitt Church, Evanston, and Democrat Helen Benson Leys, Wilmette, are unopposed in the primary and will contest each other in November. The other two are Anna Larson, Chicago, and Elizabeth W. Key, Wheaton, competing for GOP nominations in the 8th and 14th districts, respectively.

Four women are candidates for the Illinois state senate. One, incumbent Miss Lillian F. Schlagenhauf, Quincy, is unopposed for Re-

## Equality High School Notes

Miss Patsy Hine is the new office secretary at the Equality high school. She succeeds Mrs. Rita Karnes, who recently resigned the position.

### Area Group Installs Officers

CARTERVILLE, Ill. — A southern Illinois promotional group installed its new officers at a meeting near Cartersville Tuesday night.

The new president of the group, Southern Illinois Inc., is R. A. Bonfield, West Frankfort. Other officers are Jo Walker, Herrin, chairman of the board; Jettie Vaughn, Cambria, secretary; J. W. Hayton, Cartersville, treasurer.

### Pilot Escapes Injury In Forced Landing in Field Near Marion

MARION, Ill. — A young pilot from Texas walked away from the forced landing of a light plane in a field just outside Marion Wednesday.

Granville W. Bruce, 18, Grand Prairie, Tex., escaped injury when the plane's carburetor iced up and killed the engine. Bruce was ferrying the plane from Terre Haute, Ind., for Douglas Hayes, Irvin, Tex.

### Checker-Playing Dog Has an Incentive

MILWAUKEE, Wis. — Kurt Mueller, a professional dog handler, really had 'em fooled with his checker-playing golden retriever.

Mueller would give visitors to his kennel a quick peek at the dog, sitting across from Mueller's son nudging checkers with his nose.

The cat got out of the bag, though. Mueller finally admitted the dog's checkers were slices of smoked sausage which he gobbled up as soon as the curtain cut him off from his public.

In the Home Economics department (top photo) Darlene Crawford tells Bonnie May the way to sew a fine seam. In the second picture commerce students Shirley Reeder and Gertrude Harlow practice their typing. Third picture shows Judy Reynolds, Marianne Alexander and Carolyn Endsley getting their bookkeeping. Fourth picture features Sally Schwartz and Norma McDonald taking dictation. (Purple Clarion Photos)

EQUALITY REBEKAHS INSTALL OFFICERS—The Equality Rebekah lodge held its regular installation ceremony recently. Margaret Ann Hopson was installed as noble grand, and Mildred Milligan as vice grand. The women are, from left to right, front row, Mary Ellen Coffee, Martha Crane, Mary Ann Bramlet and Flossie McGehee. In back are Ruby Carnahan, Mary Moore, Eva Kinkaid, Mildred Milligan, vice grand, Margaret Ann Hopson, noble grand, Elsie Wooley, Lorene Bennett, Nellie Davenport, Lillie Breeze and Ethyl Moore.

**THE STORY:** James Bennett, an investigator for the State Industrial Welfare Commission, is investigating a death, six months before, of Frank Osborn. He attempts to locate the attending physician, Dr. Richard Jarrett, who is also the county coroner. In doing so, he meets Sheriff Abner Cornwallis.

I said to the sheriff, "Do you live here in town, Mr. Cornwallis?"

He nodded. "Right here at the Inn, for the last six years. Been my home since my wife passed on. The kids are scattered and gone — even got a missionary daughter in Africa. Lives outside Nairobi. Married a preacher."

Lucy placed a glass and a bottle on the table. As she did so, I heard the sound of a car door slamming. It seemed to come from the drive beside the Inn. Abner Cornwallis paid no attention, but the girl raised her head attentively. Then she moved quickly out into the hall and disappeared. I turned in my chair and glanced up at a mirror over the bar. It reflected the hall and the front door, an area which could not otherwise be seen from inside the bar. I saw the front screen door open. A man entered and smiled at the girl. He was of medium height, slight, maybe 10 years older than the girl, which I guessed would make him around 30. He had close-cropped brown hair, graying a little at the temples, and wore a soft brown-and-tan checked jacket. He was only a little taller than the girl. She spoke to him, and pointed out the door. He shrugged, patted her cheek, and went out, closing the screen quietly. The girl came back down the hall.

As she passed the archway, Abner Cornwallis called, "Hey, Lucy, when's Roy coming back?"

"It's hard to tell, Abner," she entered the lobby.

"A man just came in," I said to him, "but he left. What does Roy look like?"

He swallowed another inch of his drink and gazed broodingly at the scant remainder. "Big man," he said. "Six-footer, 200 pounds."

He looked up at me.

"It wasn't Roy," I said.

I drank my beer and thought about the girl named Lucy and the man who wasn't Roy.

Roy arrived presently, perspiring and grinning, a big man indeed, a happy young man with friendly brown eyes. "It's a boy, Abner," he said to the sheriff, and he was almost panting. "Eight pounds, three ounces." He brushed a sleeve over his broad red face.

The old man stood up, shook Roy's hand and said courteously, "Congratulations."

I stood, too, and shook his hand. "Good for you, Roy," I said. "My name's Bennett."

Formed First Republic

First republic in the New World was formed by the Eleutheran Adventurers, who made the first attempt at permanent settlement in the Bahamas during 1647.

glasses. People were eating and drinking in the booths and at the tables.

I looked around, but I didn't see the man in the checkered jacket or the girl named Lucy.

A youth said, "Check your hat, sir?"

I gave him my hat, accepted a check.

A white-coated waiter came up to the bar, placed the two glasses on a tray and hurried to a far booth. My gaze followed him, and I saw the girl. She was looking directly at me, but when my gaze met hers, she glanced quickly away.

(To Be Continued)

Their Records

Only two jockeys have ridden two consecutive Kentucky Derby winners: Isaac Murphy won on Riley in 1890 and repeated on Kingman in 1891; Jimmy Winkfield won on His Eminence in 1901 and repeated on Alan-a-Dale in 1902.

## Corn Acreage Allotments Cut 15 Per Cent

WASHINGTON (AP)—The Agriculture Department today announced a 15 per cent cut in national acreage allotments for the 1956 commercial corn crop.

The department set the allotment at 43,280,543 acres in the 840-county commercial corn producing area in 23 states.

The 1955 allotment was 49,842,697 acres in 805 counties in 21 states.

The acreage allotment for the commercial corn producing area is determined by a formula de-

signed to provide a normal supply in the marketing year covered by the allotment. The normal supply includes estimated domestic consumption, exports, and an allowance for carry-over, with adjustments for consumption trims and for unusual conditions.

The department said the formula indicates a need for a 1956 production of about 1,900,000,000 bushels in the commercial area. With average yields and normal weather conditions the adjusted acreage for 1956 would produce the required 1,900,000,000 bushels.

Compliance with acreage allotments is a condition of eligibility for price supports in the commercial corn-producing area. The price support rate for this year has not been announced. For the 1955 crop, it was \$1.58 a bushel, or 87 per cent of parity. The support rate is likely to be lower for the 1956 crop.

The total production of corn in 1955—in both commercial and non-commercial areas—was 3,185,000,000 bushels. The corn was grown on about 80 million acres. Here is a list of commercial

## Real Life Joe Friday Has His Troubles

MUSKEGON, Mich. — "What's it like when your name is Joe Friday?"

"It can be pretty annoying at times," said Muskegon's Joe Friday, who bears no resemblance to the poker-faced TV detective character of the same name, is a dehydration oven operator.

## Liquid Miracle!

The instant Wisk hits water, it bursts into millions of wet, live, liquid suds, liquid suds with concentrated washing power that get out dirt and stains dry, lazy, powder suds can't even budge.

You will pour Wisk into your washer. It will get your family wash so clean and white that you will never use a powder detergent again!

New, blue WISK is the first detergent of its kind ever made. It is a new formula — completely different from anything else you ever tried.

In the first place, it is a liquid that you pour into your washing machine. It goes to work the instant it hits water. There's no waiting for powders to dissolve.

But, more important, new WISK is concentrated. It does three times as much wash as the same amount of powder. And it does a better job, too. For it gives you a concentrated washing power completely unequalled by any powder. Besides, new WISK is safe for hands, safe for fabrics — safe as only a liquid can be.

### MAKES ANY WASHER TURN OUT A CLEANER AND WHITER FAMILY WASH!

Never again need you take a napkin out of your washer and find a gravy stain still in it. Never again need you find a lipstick stain left in a hand towel or a grease spot in a suit of coveralls. For concentrated liquid WISK penetrates deep down into the cloth fibers in a way that no powder is able to. Safely, but, oh, so thoroughly, it pulls

out stubborn stains, removes hidden dirt, gets everything spotlessly clean.

And wait till you see what WISK does for the collars and cuffs of your husband's shirts! Without bluing or bleach, it gets white things up to three shades whiter with the first wash no matter what detergent you used in the past. In fact, WISK gets all your family wash so wonderfully clean you can even smell the difference between a WISK wash and one done with another product!

### FIRST REALLY ALL-PURPOSE DETERGENT!

You will use WISK for just about every cleaning job in your home! It makes quick work of dishes: Soaks them clean. Concentrated liquid WISK wipes grease off a stove or kitchen wall. It makes old, discolored linoleum look like new. And if your kitchen cabinets have yellowed with age, it washes them white and shiny again without scratching or marring the surface in any way.

New, blue, liquid WISK does the toughest cleaning jobs quicker, easier, and more safely than products specially designed for these tasks. Now you can put those harsh and dangerous chemicals in the garbage can where they belong!

### NO MORE MESSY, SNEEZY POWDERS! NO MORE CLUTTERED SHELVES!

And what a blessing WISK is! It does away with "washday hay fever." The handy can does away with clumsy boxes that get soggy and fall apart. It does away with messy powders that spill. And because WISK does so many jobs so well, it means that you don't have to clutter up your shelves with a box for this, a bottle for that, and all those other packages a woman used to need to keep her home clean.

### WISK IS UNCONDITIONALLY GUARANTEED BY LEVER BROTHERS!

We've promised a good deal for WISK in this advertisement, but we mean every word we've said. In fact, we guarantee them. We've had them checked by Good Housekeeping Institute and by Parents' magazine. And if you don't agree that every word is true, that WISK is the best detergent you've ever used — not just as good, but the BEST! — we at Lever Brothers will return the purchase price to you... plus postage! So start using WISK today! It's at grocers and supermarkets in pint and quart sizes.

Liquid Miracle!

WISK washes clothes whiter than any powder ever made! Without bluing or bleach, it gets white things up to three shades whiter with the very first wash!

Liquid Miracle!

WISK removes more stains than any powder! Wet stain with water. Spread WISK directly on stain. Put in machine with rest of wash. WISK gets everything clean.

Liquid Miracle!

WISK rinses away cleaner than any powder ever made! WISK rinses away as only a liquid can! Leaves no undissolved powder or soap scum to scorch when ironing.

Liquid Miracle!

WISK is safer, much safer, than any powder ever made! WISK is safe as only a liquid can be, safe for anything that's safe in water. Kind to hands. And no sneezes!

You haven't washed your cleanest wash...until you've washed with **Wisk**!

**"Wisk - it's wonderful!"**
